Instructions - Refer to *Vehicle Verifiers License Handbook* (OL 301), available at [dmv.ca.gov](http://dmv.ca.gov). Additional verification forms are available at [dmv.ca.gov](http://dmv.ca.gov) and at all DMV offices. The most current version of this form must be used.

Permitted verifications for vehicle verifiers: (1) Nonresident vehicles, (2) any vehicle or trailer, excluding used motorcycles, with supporting ownership documents for which there is no California (CA) record. The VIN must appear okay. The supporting ownership document must be a Certificate of Title, Manufacturer's Certificate or Statement of Origin (MCO/MSO), US Government Standard Form (SF) 97-1, or Registration Card. All other vehicle verifications or verifications with no supporting ownership document must be referred to the DMV or CHP for inspection.

Prohibited verifications for vehicle verifiers: (1) Vehicles whose US Federal Certification Label (Safety Label) disagrees with the VIN, or is illegible, damaged, tampered, altered, missing, never issued (e.g., direct import-grey market, etc.), or does not match the documents, (2) revived salvage or revived junk vehicles, (3) specially constructed (SPCNS) vehicles, (4) used motorcycles with an unavailable California record (last registered in CA, but record no longer appears on DMV's database), (5) vehicles with documents from a foreign country, (6) motorcycles with engine changes.

VIN/Model Year - Pursuant to federal law, a 17-digit VIN that passes check-digit is required on all 1981 and newer model year motor vehicles, and all 1985 and newer model year trailers. The model year of 1980 and newer vehicles is encoded in the 10th digit of VIN.

Do NOT use the Federal Certification Label as the primary source for the VIN. All 1981 and newer model year vehicles with less than a 17-digit VIN must be referred to CHP for verification. When inspection of a VIN reveals evidence of tampering, alteration or obliteration of the number, immediately notify the nearest DMV, Investigations Section.

Specially Constructed Vehicles (SPCNS) (CVC §580) - Enter "0000" for the model year; SPCNS vehicles are not manufactured vehicles and do not have a model year. Replica vehicles (such as a Cobra, Mustang, or Corvette) built from a kit and assembled or built for private use and not for resale, must be registered as a SPCNS vehicle. If the kit vehicle was built by a licensed manufacturer (CVC §672) or remanufacturer (CVC §507.8), the kit vehicle must be registered under the name of the manufacturer or remanufacturer, not the make of the vehicle it replicates.

Trailers (except Horse) with Human Habitation (i.e., Fifth Wheel, Travel, and Toy Hauler) are Coach (CCH) or Camp (CMP). Fifth Wheel CCHs do not exceed 48' (576") (L) or 8 1/2' (102") (W). All other CCHs do not exceed 40' (480") (L) or 8 1/2' (102") (W). CMPs do not exceed 16' (192") (L) or 8' (96") (W). \*(overall L)

Motorhomes do not exceed 45' (540") (L) or 8 1/2' (102") (W).

Truck Tractors with living quarters are BTM "DS" or "TR", unless the living quarters permanently prevent the truck tractor from towing or drawing other vehicles (CCR §150.08).

Pickups (PKs) - The Gross Vehicle Weight Rating (GVWR) is found on the US Federal Certification Label. NOTE: GVAR is Gross Vehicle Axle Rating, not GVWR. PKs under 11,499 GVWR have the following BTMs: 3C, 4C, PK, and SP. PKs over 11,499 GVWR are BTM "VA".

The following multi-designed vehicles are PKs: Cadillac Escalade EXT, Chevrolet Avalanche, Ford Explorer Sport Trac, Hummer H2 SUT, and Nissan Frontier (CCR §150.04).

Pickups-Mounted (CVC §§243, 362, 661) - To have BTM "PM", the pickup must have a permanently attached camper shell, canopy, or similar mounted structure, and provide facilities for human habitation or camping purposes.

Advise owner that removal of the structure will require commercial registration and weight fees to be due.

Motorcycles - Only a verification form completed by an authorized DMV employee is acceptable on an application for on-highway (street) motorcycle registration of any motor vehicle currently registered OHV or titled with type license "C2" (title only).

Used motorcycles (including motorcycles manufactured for on-highway use being registered off-highway (OHV)) with unavailable records, or documents from a foreign country must be inspected by CHP.

OHVs - A 2003 and newer model year OHV with a "3" or "C" in the eighth position of the VIN are non-complying OHVs (red sticker).

Any motorcycle or vehicle originally manufactured and registered for OHV use cannot be converted for on-highway use, unless it is manufactured for dual purposes.

Golf Carts (CVC §345) are motor vehicles designed to carry golf equipment, and carry no more than 2 persons, including the driver, and have at least 3 wheels in contact with the ground, and weigh no more than 1,300 lbs. unladen, and not exceed a speed of 15 MPH.
